

WOLMANIZED® NATURAL SELECT™ Pressure Treated Wood

CAUTION!

WOOD DUST (TREATED OR UNTREATED) MAY CAUSE RESPIRATORY, EYE AND SKIN IRRITATION. SOME WOOD SPECIES MAY CAUSE DERMATITIS AND/OR ALLERGIC RESPIRATORY EFFECTS. THE INTERNATIONAL AGENCY FOR RESEARCH ON CANCER (IARC) HAS CLASSIFIED UNTREATED HARDWOOD OR HARDWOOD/SOFTWOOD MIXTURES OF WOOD DUST AS A HUMAN CARCINOGEN. NTP HAS CLASSIFIED ALL UNTREATED WOOD DUST AS A CARCINOGEN.

- ❖ Avoid wood dust contact with ignition source.
- ❖ Handling treated or untreated wood may result in skin exposure to splinters.
- ❖ When sawing or cutting treated or untreated wood, wear a NIOSH approved N95, N99 or P100 dust mask.
- ❖ **DO NOT BURN TREATED WOOD**

FIRST AID: If wood dust is inhaled, remove to fresh air. In case of eye and/or skin contact, flush with water. If irritation persists, seek medical attention.

For additional information, see the Material Safety Data Sheet (MSDS) and the Safety Information Sheet.
